

AMENDMENTS TO THE SPECIFICATION

In the Specification, please replace paragraph [0015] with the following:

[0015] In preparing to use a heating/cooking unit according to the present teachings, a collapsible 'frame' is assembled or erected which functions to provide support of the items that are to be heated or cooked and to partially or fully enclose a heated space in various arrangements. This frame preferably comprises a number of side panel members which cooperatively engage one another to form the erect frame when needed. United States Patent No. 6,591,828, issued to D. G. Schneider, is hereby incorporated by reference in its entirety as if fully set forth herein.
